

I am writing to let you know that Airl, brought to us here in MN by a local translator, has been a wonderful addition to our local radio stations. Finally, there is a contemporary Christian station that my whole family, teens especially, listens to! Having Airl available has been a true blessing. If Airl is discontinued it would be awful to think of the garbage some of the teens might tune into on other radio stations! We love Airl and the Positive Hits it brings to our family.
